**Say Goodbye to High-Priced Consultants: Save on Support Offers
MAS 90 | MAS 200 | MAS 500 Training and Support for Pennies!**

NEW YORK, NY, October 11, 2005: Save on Support.com, an innovative accounting software support and training firm, is excited to announce its grand opening of truly affordable, fast, online MAS 90, MAS 200, and MAS 500 accounting software consulting services.

Save on Support.com employs top-notch accounting specialists who are extremely knowledgeable in Sage Software's suite of MAS 90, MAS 200, and MAS 500 products, for both superior support and technical training. In addition to software support and training, Save on Support.com offers reliable accounting advice to help you manage your books.

Using sophisticated remote-access technology, Save on Support's trained technicians can *mirror* your computer, take over the controls, and walk you through modules, screens, configurations, installations, reporting functions, or just see what's on your screen. It's as if an MAS 90 | MAS 200 | MAS 500 accounting software consultant was sitting right next to you – but for a fraction of the cost!

Save on Support.com offers both online and on-site training. In addition, low-cost support plans can be purchased, which include telephone as well as email accounting software support. The more minutes you purchase, the lower the cost.

The best part is the guarantee. Save on Support.com stands behind all online software support. If a question or problem cannot be resolved, you don't pay. It's that simple. No risk, 100% money-back guarantee.

Unheard of in the accounting industry, especially for MAS 90 | MAS 200 | MAS 500, is competent, low-cost software consulting training and support. Now, with Save on Support.com, you can close your checkbook and save your money for more important business purchases.
